I have been placed on the board type ZIM container DJIBOUTI, surfing in the direction of the SHENZHEN (China) - SEATTLE(U.S. A), by performing a modification work on the main axle of the mooring tying-, replacing and fitting a series of bollards, nostrils guardrail and reinforcements, fitting and welding in accordance with the plan using hoists, hydraulic jack, feathers, by carrying out the operations of oxyacetylene sawing, grinding, stripping and welding by the electric arc MMA 111 and semiautomatic welding MAG 135-136 in position PA, PB, PD, PE, PF.

Business or sector : Repair and maintenance ships

2015

Fitter welder - Plumber

GLOBAL MARITIME GROUP CONSTANȚA- ROMÂNIA

I have been placed on board of the passenger ship Astors (CRUISE), participating in the repair and maintenance of the vessel during the navigation and while stationary at the jetty or in the dry-dock. We have made repairs to ancillary installations of air, drinking water and fire, replacing the different sections of the pipes worn, making and fitting the tubing and the shipping frame. I welded pipes from different sizes galvanized steel, carbon steel, the stainless steel mesh in the MMS 111 and MAG 135- 136.

Business or sector : Repair and maintenance ships

2014-2015

Fitter welder

HAMAR I-ICELAND REYKJAVIK-ISLANDA

I executed repairs and maintenance for the maritime transport and the fishing industry on the territory of Iceland, making and fitting the various elements of the saturation ships, the prefabrication outriggers, pedestals, cable runs and tubing, by carrying out the operations of oxyacetylene cutting and arc welding MMA 111-MAG 135-136.

Business or sector : Construction, repair and maintenance ships

2011-2013

Welding foreman

NAVROM SHIPYARD-ROMÂNIA-GALATI

Planning, organization and coordination of quantitative and qualitative production. Daily reporting products, consumption and raw material stocks. Supervision of subordinate staff. Responsible for security and safety. Coordinating 30 workers (locksmiths, welders, turners, mechanics, painters) works with specific metal building construction and ship repair. I coordinated and supervised work in arc welding and shielding gas (argon and CO2).

Business or sector : Construction, repair and maintenance ships

2006-2011 **Fitter welder**

DAMEN SHIPYARD GALATI-ROMANIA

Execution by the process MMA welding semiautomatic MAG 111 and 135-136 (IP PB.PD, PE, PF) for the construction of tugs for offshore platforms. Assembly stations and block sections both in the hall and on the platform. Reading WPS and application to carry out welds were examined penetrant, ultrasonic and magnetic particle penetrating radiation. We conducted oxyacetylene flame cutting, grinding and machining parts, gouging with carbon electrode welding and ceramic support with tubular wire with 1.2 mm maximum sheet thickness of 30 mm.

Business or sector : [Construction, repair and maintenance ships](#)

2004-2005 **Fitter welder - Plumber**

SERBIM NAVAL INDUSTRIES MARSILIA-FRANTA

I worked for an exchange of experience at international quality standards applied in the French maritime sector. I have executed piping installation works for marine equipment by performing arc welding and semiautomatic MMA 111 135-136 for various craft such as yachts, cruise ships, tankers and ships of different tonnages. Preparing for welding steel pipes by manual processing grinder. Inserting threads pipe and fitting them for building facilities. Manufacturing fixed or mobile media pipeline. Preparing and carrying out pressure tests and tightness installations. Execution of the pipe welds by electric arc process and MAG136 111 MMA.

Business or sector : [Construction, repair and maintenance ships](#)

2000-2004 **Fitter welder**

SC.CRIOMEC SA GALAȚI-ROMÂNIA

Preparing the components needed for the structures in construction, development of assemblies and subassemblies made by welding (beams, pillars of resistance, pillars, frames, handrails, uprights, cornice, metal doors, metal casings, metal stairs, panels railings, fences , bridges, industrial buildings, fences and other various simple elements).

- Realization of metal constructions by MIG-MAG welding MMA 135-136 and 111, welds checked and verified destructive and nondestructive.

Building execution / metal structures of steel, aluminum, stainless steel etc. I worked with the whole range of laminated metal profiles and round pipes, rectangular steel sheet, stainless steel, aluminum, guillotine, saw for cutting, press abkant, plate rolling machine, cutting machine CNC (SAF OXYTOME B25 E) etc. Experienced in performing high precision welds in steel, stainless steel, aluminum, brass (sheet, profiles, pipes, etc.) by processes, MIG-MAG, electric manual, semiautomatic and automatic. I worked in factory controlled crane to the ground.

Business or sector : [Metal construction](#)

- Changed horses running bridge cranes,

- Loading device changed furnaces, mixing drum agglomeration changed, renovated coke pusher machine, etc.

-execution by welding process electric arc MMA MAG 111 and 135-136. oxyacetylene flame cutting.

Business or sector: [Steel repairs](#)

EDUCATION AND TRAINING

(2009-2011) **Master locksmith metal construction, boiler room and welding**
TECHNICAL COLLEGE TRAIAN GALAȚI- Foreman School

Subjects studied: U.T. Welding, Metal structures, hydraulic drives, energy Fluid Technology, Quality Management

(1989-1992)

Locksmith (evening school) / Welder (vocational school)

Subjects studied - skills covered: machinery and mechanical works and machine technology and welding technology,

1. Organisation ergonomic workplace,
2. Application of technical work safety, fire fighting and environmental protection,
3. Compliance with the quality assurance,
4. Interpretation and use of technical documentation,
5. Maintenance job specific equipment,
6. Preparing materials for welding,
7. Prepare the welding station,
8. Performing welding
9. Control of welded joints.

(1989-1991)

INDUSTRIAL SCHOOL GROUPS RADU NEGRU GALAȚI

Apprenticeship conducted at Naval Mechanical Plant Galați.
